

SUPRA DVI-DVI SINGLE-LINK

DVI-cable 18+1 Single link

Rev.date: 2023-06-22

Customs tariff no: 8544429010

Country of origin: Sweden

- Triple shielded, provides efficient shielding from EMI & RFI
- Robust 24K gold plated connectors, fully shielded
- Support resolution: 1920*1200@60Hz (WUXGA)

SUPRA DVI-DVI Single link - Ultra High Speed

DVI (Digital Visual Interface) is a standard for digital picture transmissions between e.g. computers, screens and projectors. SUPRA UHD4 high performance DVI single link cable is specially designed for digital high bandwidth transfer up to 30m. Screen resolutions of 1920*1200@60Hz (WUXGA), set new standards of both picture quality and cable design. The UHD4 cable conductors are insulated with PE foam for low capacitance and high velocity factor. The digital pairs have a precise and stable impedance over all working frequencies. Individual screened pairs are twisted with different pitches in order to minimise crosstalk. The cable is triple-shielded, the most sensitive conductors are separately screened. In addition all conductors are protected with a common, double shield of aluminum foil and copper braid, which provides efficient shielding from electromagnetic interference.

The cable is equipped with 24K gold plated connectors and a contact housing made of aluminium to further avoid signal degradation. The connector is rewireable to enable mounting after cable installation in walls or conduits, tubing, trunking, etc. The gold plating of the pins is as thick as 0.8 micrometres for stable and longlived connection quality.

Cable:	UHD4 DVI Single link
Jacket:	PVC GA78, round
Diameter:	9.5mm
Colour:	Iceblue (other colours upon order)
Connector:	DVI-D 18+1 gold plated
Shell:	Fully shielded in Aluminum
Max resolution:	1920 x 1200 @ 60 fps (Hz) (WUXGA)
Bandwidth:	18 Gbit/s
Application examples:	Computer/Projector/Display
Packing 6-10m:	Blister 25x21.5x4.8cm
Packing 6-10m:	Blister 31.5x25x6cm
Packing 12-20m:	PE-bag 25x25x5cm
