Country of origin: Taiwan

SUPRA CombiCon crimp body

24K gold- or rhodium-plated copper connector with M6 thread. The connector consists of a crimp body, a contact part (either BFA/banana or fork), and a sleeve to complete a precise, high-quality joint. The crimp body is pressed onto the cable strands, creating a delicate yet secure junction between the cable and the contact. The Supra CombiCon crimping pliers, made by Pressmaster, are specially customized to fit our crimp bodies perfectly, ensuring consistent and reliable connections.

The crimp bodies are made from solid copper, plated with 24K gold or rhodium, and feature an M6 threaded connection. This allows optional attachment of gold- or rhodium-plated spades or banana pins. All factory-assembled cables are mechanically pressed under high pressure, producing an airtight, homogeneous joint that is electrically seamless—almost equivalent to fusion welding in performance.

CONSTRUCTION

Material:	24K Gold-/Rhodiumpläterad OFC
Pin connection:	M6
Wire connection:	Crimp (Combicon crimp tool is recommended)
Connector parts:	CombiCon Spade part M6 & CombiCon Banana pin M6
Insulation:	Combicon Sleeve
Extra bending prot.:	Combicon Crimp Claw (Pict *1) (only used for Sword & all Bi-wire cables)

Crimp body	Cable	Max wire diameter
CB-01	All 1.6mm ² / AWG 15 cables	1.82 mm
CB-02	All 2.5mm ² / AWG 13 cables, Ply 2.0, Quadrax	2.28 mm
CB-02XL	XL Annorum single conductor	2.28 mm
CB-02XL Rhodium	XL Annorum single conductor	2.28 mm
CB-03	Sword, Ply 3.4, Quadrax (Bi-wire), Rondo 2.5 (bi-wire), XL Annorum (bi-wire)	3.48 mm
CB-03EX Rhodium	Sword Excalibur	Fits only Excalibur
CB-04	All 4.0mm ² / AWG 11 cables	2.95 mm
CB-06	All 6.0mm ² / AWG 9 cables & Rondo 4x4 (Bi-wire)	3.98 mm

Only sold in 50-pack to stores, but individually in stores.
