

SUPRA DUAL-XLR AUDIO

Analogue Audio, stereo with XLR-plugs

Gauge: 0.24mm² / AWG 23

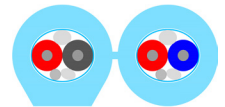

Rev.date: 206-05-05

Customs tariff no: 8544429010

Country of origin: Sweden

- PE di-electric insulation for low capacitance
- Correct and well-balanced sound
- Efficient dual shielding for maximum signal integrity

DUAL 2XLR-2XLR Balanced Audio

Interconnect, Hi-Fi, line & studio – stereo

Our most cost-effective balanced analogue interconnect, built on Supra's proven design principles. A two-channel (stereo) cable for fully balanced signal transmission, delivering the hallmark Supra performance: low capacitance, effective shielding, precise timing and excellent transient response.

Despite its attractive price level, this cable offers impressive musicality and clarity, making it an ideal upgrade from standard or bundled interconnects. The improvement in dynamics, noise reduction and overall sound quality is clearly noticeable.

Typical applications include balanced connection between audio components such as DACs, CD players, pre-amplifiers, power amplifiers and professional studio equipment. Fitted with high-quality XLR connectors for secure and interference-free signal transfer.

CONSTRUCTION

| | |
|--|---|
| Cable: | SUPRA DUAL |
| Jacket: | PVC GA78, Twin design |
| Diameter: | 2 x 6.1mm |
| Colour: | Ice blue (other colours upon request) |
| Marking: | SUPRA DUAL > Made in Sweden > Meter mark |
| Screen connection: | Semi-balanced, the screen is only conneted in the source end. |
| Plugs: | SUPRA XLR |
| - Typ: | 2 XLR Male > 2 XLR Female |
| - Material: | 24K gold-plated copper |
| - Colour: | Anthracite grey |
| - Locking: | Standard XLR locking mechanism |
| Solder tin: | Almit SR34 Super |
| Signal direction: | Follow the arrows on the cable > source > receiver |
| Packaging: | 25 x 21.5 x 4.8cm |
| Special lengths are made upon request. | |
