

SUPRA DVI-DVI DUAL-LINK

DVI-cable 24+1 Dual link

Rev. date: 2026-05-07

Customs tariff no: 8544429010

Country of origin: Sweden

- Triple shielded, provides efficient shielding from EMI & RFI
- Robust 24K gold plated connectors, fully shielded
- Support resolutions:
 - 3840×2400 @ 33Hz (WQUXGA)
 - 2560×1600 @ 60Hz
 - 2560×1440 @ 60Hz (WQXGA)

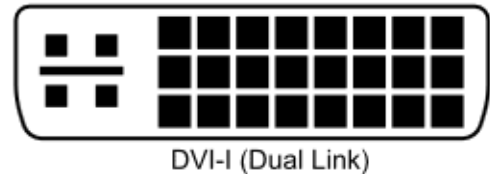

SUPRA DVI-DVI Dual link - High-Performance Digital Cable

DVI (Digital Visual Interface) is a standard for digital picture transmission between computers, displays and projectors. The SUPRA DVI-DVI Dual Link cable is engineered for high-resolution digital video transmission and demanding bandwidth applications, including larger displays and 3D video formats. Designed for reliable long-distance performance up to 30m, it delivers exceptional picture quality and signal integrity.

The HD7 cable conductors are insulated with air-injected PE foam for low capacitance and high velocity factor. The digital pairs maintain a precise and stable impedance across all working frequencies. Individually screened twisted pairs with varying pitches minimise crosstalk, while the cable's triple-shielded construction provides superior protection against EMI and RFI interference.

The cable is equipped with robust 24K gold plated connectors and a fully shielded aluminium connector housing to reduce signal degradation and ensure long-term durability. The detachable and rewirable connector housing allows convenient installation through walls, conduits and trunking systems.

Cable:	UHD7 DVI Dual-link
Jacket:	PVC GA78, round
Diameter:	11mm
Colour:	Ice blue (other colours upon request)
Connector:	DVI-D 24+1 gold plated
Shell:	Fully shielded in aluminum
Max resolution:	3840×2400 @ 33Hz (WQUXGA) 2560×1600 @ 60Hz 2560×1440 @ 60Hz (WQXGA)
Bandwidth:	18 Gbit/s
Application examples:	Computer/Projector/Display
Packing 1-6m:	25x21.5x4.8cm
