

SUPRA EFF-IXLR AUDIO

High End Analogue Interconnect Cable with XLR

Gauge: 0.46mm² / AWG 21

Rev.date: 2023-03-17

Customs tariff no: 8544429010

Country of origin: Sweden

- Silver plated tube lead & low inductance
- Low skin-effect has a dynamic & clearly audible influence
- Individual conductors Aluminum screens
- Multi test winner

EFF-IXLR 2XLR-2XLR Audio - a multi-test winner!

High End Analogue Interconnect Cable with heavy-duty XLR: Designed for flawless transfer of even the most subtle musical details, the EFF-I cable minimizes capacitance, phase distortion, skin effect and external interference for accurate and natural sound reproduction.

Using Supra's Equalized Frequency Flow (EFF) design, silver-plated conductors are arranged in a tubular geometry that promotes uniform signal flow across the entire audible frequency range, reducing frequency-dependent losses and preserving phase accuracy. PE insulation provides very low capacitance, while an aluminized PET shield effectively protects against EMI and RFI interference.

Equipped with Supra's patented fully shielded XLR connectors, engineered for long service life in professional applications and featuring durable cable strain relief for secure and reliable connection quality.

CONSTRUCTION

- Cable: [SUPRA EFF-I](#)
- Jacket: PVC GA78, round
- Diameter: 7.8mm
- Colour: Ice Blue (other colours upon request)
- Marking: SUPRA EFF > Made in Sweden > Meter mark
- Screen connection: Balanced, the screen is connected in both ends
- Connectors: [SUPRA Swift XLR](#)
- Type: 2 XLR 3F Female red/black > 2 XLR 3M Male red/black
 - Material: Pins 24K gold-plated OFC, metal chassis fully shielded
 - Colour: Anthracite grey
 - Locking: Snap lock & screw lock cable clamp
- Solder tin: Almit SR34 Super
- Signal direction: Female > Source > to > Male > Receiver
- Packaging: 25 x 21.5 x 4.8cm

Special lengths are made upon request. Additional cost applies per extra meter.
