SUPRA HDMI-HDMI HD - High Speed with Ethernet & Audio return channel

FRHF HDMI cables 16m to 30m is assembled with HD5/H cable. Approved for HDMI v1.4 HD 1080p resolution. HDMI UHD4/H is probably the best fire retardant HDMI cable on the market. It offers ultra high-speed HDMI with 100 Mbit/s ethernet, audio return channel and 8K resolution. It is objectively tested at HDMI's Accredited Test Center in the USA. The cable is FIRE RETARDANT & FLAME RETARDANT, it is slightly stiffer than the standard HDMI. The cable got a low friction jacket, perfect for installation in conduit pipes.

The patented detachable connector housing allows a straight or a angled shell, as well as being able to install the cable with connector part through a conduit pipe for concealed installation when the connector housing is removed. The plug itself is carefully soldered by qualified personnel, as well as cast in a strong plastic to withstand handling without the contact housing being assembled. It is possible to run the cable in a 20 mm conduit pipe or alternatively a 25 mm conduit hose. The housing is made of metal and after assembly it provides 100% shielding properties.
