

## SUPRA MAINS PLUG SW-US

Male Nema power connector 110V

Rev.date: 2026-04-22

Customs tariff no: 8536901000

Country or origin: Taiwan

### SUPRA MAINS PLUG SW-US

Hospital- and audio-grade male mains plug for high-end power cables such as Supra LoRad. Conforms to US standards.

The plug features 24K gold-plated pins and cable screw clamps, ensuring secure connections with minimal contact degradation. It provides a flexible, sturdy, and durable connection between the power source and connected devices.

No component is over-engineered; the conductors are designed for long service life and stable performance. The patented housing does not require pre-mounting on the cable and integrates the housing assembly with the cable strain relief.

The conductors are plated with a thick layer of 24K gold, making them suitable for frequent reconnections without compromising performance.

Note: For the full LoRad effect, the connector must be used with a grounded wall socket. LoRad connectors are tested and certified by Intertek Sweden and comply with UL 498 standards.

### CONSTRUCTION

Standard:	US standard / UL STD 498
Plug type SW-US:	Nema male straight with ground connection
Material:	24K gold-plated copper
Pin connection:	Screw clamp
Cable strain relief:	Screw, Integrated in housing assembly
Insulation:	UV resistant PP
Max wire area:	4.0mm <sup>2</sup> / AWG 11
Max cable diameter:	11.5mm
Rated voltage/current:	125V/15A

#### LoRad Wire Connection

The bare drain wire shall be connected to earth socket terminal at the source end only (wall socket), cut in other end. Cut the black semi-conductive screen/tape in both ends.

1. Brown conductors - Phase
2. Blue conductors - Neutral
3. Green/yellow conductor - Earth
4. Bare drain wire - Screen connection
5. Black semi-conductive Nylon screen

Easy to assemble, with no shells or housing components requiring pre-mounting before attaching the cable.

Packaging:  
MAINS PLUG SW-US MALE                      1 x straight Nema

Bulk packs are sold to retailers in packs of 50, while individual units are sold in stores.
