

## SUPRA PHONO 2RCA-SC AUDIO

Phono Stereo Interconnect with earth connection

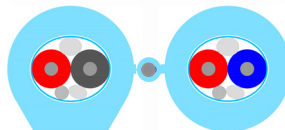

Gauge: 2x3x0.24mm<sup>2</sup> / AWG 23

Rev.date: 2026-04-21

Customs tariff no: 8544429010

Country of origin: Sweden

- Efficient shielding provides maximum signal integrity
- Suppress RFI interference
- Unbeatable price-performance ratio
- Earth Link efficiently cancels any earth potential hum

### Phono Audio RCA-6SC - Interconnect phono/turntable with earth link

Supra Phono is a dual-channel interconnect cable designed for use between turntables, step-up transformers, RIAA phono stages, or amplifiers with dedicated phono inputs. It includes an Earth Link connection required for most turntable setups.

Thanks to its low capacitance and advanced carbon/nylon shielding, Supra Phono offers exceptional immunity to noise and RFI interference, ensuring a very low noise floor and outstanding signal integrity—even with low-output moving coil cartridges. The low capacitance design preserves transient response, allowing accurate timing, dynamics, and a natural, uncompressed musical presentation with a wide 3D soundstage. Efficient shielding and semi-balanced construction ensure effective rejection of electromagnetic interference, minimizing hum and maintaining stable performance. The Earth Link further helps eliminate ground loop hum caused by earth potential differences. Supra's RCA-6SC connectors provide excellent conductivity, 100% shielding coverage, and a secure chuck-lock strain relief for long-term reliability.

### CONSTRUCTION

Cable:	<a href="#">SUPRA Phono</a>
Jacket:	PVC GA78, 8-model
Diameter:	6.0mm
Colour:	Ice blue (other colours upon request)
Marking:	SUPRA Phono > Made in Sweden > Meter mark
Screen connection:	Semi-balanced, the screen in only connected at the source end
Plugs:	<a href="#">SUPRA RCA-6SC</a> male & spade for the earth link
- Type:	2 RCA Male > 2 RCA male (red/white)
- Material:	24K gold-plated OFC
- Colour:	Anthracite grey
Solder tin:	Almit SR34 Super
Signal direction:	Follow the arrows > Source > Receiver
Packaging:	1-4m: 25 x 21.5 x 4.8cm & 5-6m: 32 x 25 x 6cm

Special length are made upon request, the only additional cost is the meter price per extra meter.
