- 24K gold-plated copper contacts

PLY 2x2.0 COMBICON 2 x 2.0 mm² with flat conductors

Supra Ply is a multi-award-winning test winner, and with its design it stands out as truly unique in its category. It is fitted with Supra CombiCon, allowing the choice between 24K gold-plated BFA banana plugs or spade connectors. See link below for further information.

The CombiCon connection is crimped onto the conductor under high pressure. When done correctly, it creates an airtight, homogeneous, and electrically transparent joint — almost comparable to fusion welding.
