PLY 2x3.4 COMBICON - 2 x 3.4 mm² with flat conductors

Supra Ply is a multi test winner and with its design it stands out as unique in its kind. Connected with Supra CombiCon which enables the choice of either 24K gold plated BFA banana plug or spade. See further link below for more information.

CombiCon is pressed under high pressure onto the conductor. Done correctly, it brings the material together into an airtight, homogeneous and electrically invisible joint, almost similar to fusion welding.
