

RONDO 2X2.5

Twisted Loudspeaker cable

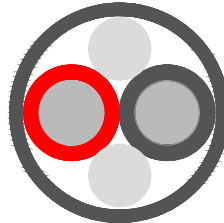

Gauge: 2x2.5mm² / AWG 13

Rev. date: 2026-05-15

Customs tariff no: 8544499390

Country of origin: Sweden

- Twisted - Highly flexible
- Low inductance
- Double insulated, approved for 100V systems
- Tin-plated - Corrosion resistant

RONDO 2x2.5 - a versatile cable

Supra Rondo is a series of highly flexible, tin-plated, twisted cables designed for a wide range of audio and professional applications. The two-conductor Supra Rondo takes conventional speaker cable design a step further. By twisting the conductors with a short pitch, inductance is reduced, resulting in faster transient response and improved musical dynamics. In addition, the multi-strand construction combined with tin plating provides excellent corrosion resistance while reducing phase-shift effects caused by diode-like electron transitions between strands. The result is an exceptionally versatile cable with well-balanced electrical and mechanical properties, suitable for everything from hi-fi installations to demanding stage environments. Our specialized production method allows the cable to maintain a tight twist pitch while preserving outstanding flexibility and resistance to handling fatigue, making it particularly suitable for professional on-stage use. For those seeking a clear step beyond conventional speaker cable performance, Supra Rondo with two or four conductors delivers a distinctly audible improvement.

CONSTRUCTION

Conductor (x2):	Tin-plated OFC-wire 320x0.10 mm
Diameter:	2.3 mm
Cross section Area:	2x2.5mm ² / AWG 13
Insulation:	Red + & Black -
Insulation thickness:	0.7 mm
Jacket:	PVC GA78, round
Jacket thickness:	1.5 mm
Diameter:	8.1 mm
Colour:	Ice Blue & Anthracite grey (other colours upon request)
Marking:	SUPRA RONDO 2x2.5 + Made in Sweden + Meter mark
Weight:	92 kg/km

ELECTRICAL SPECIFICATION

Resistance:	6.8 ohm/km
Inductance:	0.40 uH/m
Rated voltage:	100V
