

SUPRA SUBLINK AUDIO 1PR LINE

Analogue Interconnect Cable mono

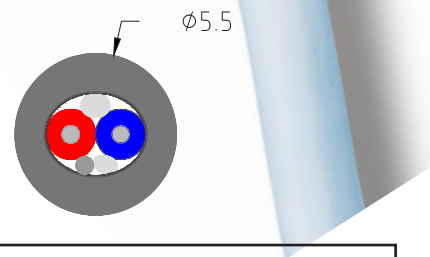

Gauge: 1x3x0.24mm² / AWG 23

Rev.date: 2026-05-19

Customs tariff no: 8544499390

Country of origin: Sweden

- Excellent price-to-performance ratio
- Incorporates core Supra design principles for fast transient response and accurate signal reproduction
- PE dielectric and high-purity copper ensure excellent signal integrity
- Fully shielded for effective noise rejection

Sublink Audio - Analogue Interconnect Cable – Hi-Fi, Line-Level & Subwoofer (Mono)

SUPRA SubLink is designed for single-channel interconnect applications such as AV receiver LFE output to subwoofer LFE input, or as a stereo pair for analogue audio interconnections. Its low capacitance and highly effective shielding make it particularly suitable for long cable runs, including subwoofer installations.

The cable can be terminated for both single-ended and balanced connections using compatible Supra connectors such as PPX, RCA-6, or XLR. An excellent entry-level interconnect for quality-conscious Hi-Fi users who demand higher performance than the standard cables typically supplied with entry-level audio equipment. Supra SubLink provides a noticeable improvement in signal transparency and dynamic performance, allowing audio components to achieve their full potential.

CONSTRUCTION

Conductors (x2):	Tin-plated OFC copper, 5N purity 19 x 0.127 mm
Cross-Section Area:	2x0.24mm ² / AWG 23
Insulation:	PE insulation, blue & red conductors, twisted pair
Shielding:	Aluminium/PET foil
Shield Coverage:	100%
Drain Wire:	Tin-plated OFC drain-wire 19x0.127mm
Outer Jacket:	PVC GA78, round
Jacket Thickness:	2 mm
Outer Diameter:	5.5mm
Colour:	Ice Blue & White (other colours upon request)
Marking:	SUPRA SUBLINK > Made in Sweden > Meter mark
Weight:	48 kg/km
Packaging:	Bobbin 100m (other lengths upon request)
Suitable plugs:	Supra RCA-6, RCA-6SC & Swift XLR

ELECTRICAL SPECIFICATION

Resistance:	72 ohm/km
Capacitance:	52 pF/m
Characteristic impedance:	90 Ohm
Velocity factor:	0,66x C (speed of light)
