

SUPRA SWORD 2x3.0 EXCALIBUR

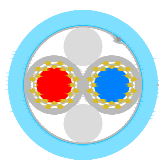

High-End Screened Loudspeaker Cable with Rhodium-Plated Connectors

Gauge: 2x3.0mm² / AWG 12

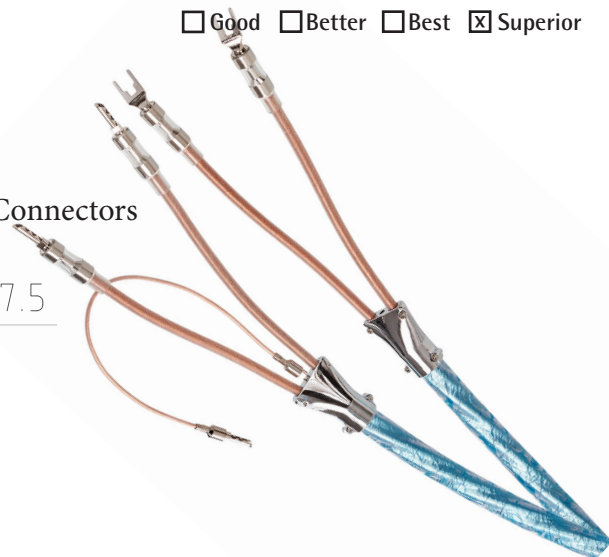

Rev. date: 2026-05-22

Customs tariff no: 8544429010

Country of origin: Sweden

Ø17.5

- Screened - Completely transparent and dynamic sound
- Bifilar wound litz conductors
- Interchangeable connectors with M6 thread, banana/spade
- Rhodium plated solid OFC connectors

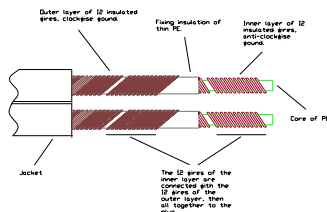

Sword 2x3.0 Excalibur

Our ultimate speaker cable, designed without compromises or shortcuts. Every element is engineered to the highest quality standards while remaining accessible, and is, as always, manufactured in Sweden. Bifilar-wound 5N OFC litz conductors are twisted and shielded for minimal RFI interference, combined with PE insulation for stable dielectric performance. The design includes a CNC-milled cable splitter with ground connection, XL-Annorum earth conductor, and solid copper rhodium-plated connectors.

The Supra CombiCon CB03-EX crimp bodies are specifically developed for Excalibur. Each conductor is mechanically twisted into the crimp body for maximum mechanical strength and durability. The litz conductors are then crimped under high pressure to create a perfect, airtight electrical connection. The connector body features a Supra M6 thread, enabling user exchange of rhodium-plated Supra spade or banana/BFA connectors. Ground connections are supplied in standard 30 cm length with specially adapted rhodium-plated Supra CombiCon connectors. The cable is designed to behave as a non-inductive and phase-stable transmission line across the entire audible frequency spectrum. Nothing is removed except distortion, allowing every musical detail to be heard with full dynamics. Enjoy!

CONSTRUCTION

Cable:	Sword 2x3.0 Excalibur
Conductors (x2)	2x12x0.40 (Enameled)
Area:	2x3.0mm ² / AWG 12
Insulation:	Transparent PE, D=6mm
Screen:	Alu/PET foil, 100%
Jacket:	PVC GA74, round, D=17,5mm
Shield connection:	30cm, Interchangeable connectors in Rhodium
Colour:	Transparent Ice Blue
Configuration:	Stereo pair, 2 > 2 connectors, Right = Red, Left = Black
Connectors:	Combicon Rhodium, 8 x Banana M6 pins & 8 x Spade M6 are included
- Material:	Rhodium platerad OFC
- Connection:	Crimp, 8 x Combicon CB03-EX RH M6
- Insulation:	Sleeve 4 x S03-EX red, 4 x S03-EX black
Signal direction:	Follow the arrows > amplifier > Speaker
Packaging:	Black wooden box 35x35x9 cm

Earth/Screen connection.

The earth conductor should be connected in the source end only (amplifier side) to:

1. Earth terminal at the amp (if available)
2. Connect to any of the amp chassis screws.
3. Negative speaker out terminal

Standard lengths as below, special lengths upon request.
