

SUPRA SWORD-ISL EXCALIBUR

High-End Interconnect with Rhodium plated RCA plugs

Gauge: 1.5mm² / AWG 15

Rev. date: 2026-05-25

Customs tariff no: 8544429010

Country or origin: Sweden

- Transparent - No signal deformation
- Great frequency response and no phase shifting.
- Bifilar wound Litz conductors
- Rhodium plated RCA plugs

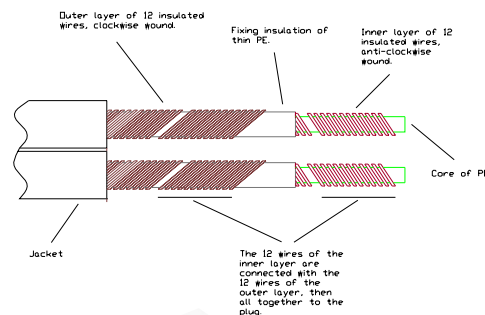

Sword-I Excalibur

Our ultimate interconnect cable. The success of the Sword Excalibur loudspeaker cable inspired the development of an interconnect based on the same patented design concept. The cable acts as a highly transparent signal carrier without the side effects commonly found in traditional cable designs, such as frequency response irregularities and phase shift. SUPRA Sword maintains signal integrity with extremely low, almost immeasurable distortion, achieved through precise control of the electro-physical layout. It is hard to beat the Sword series, regardless of price. The Rhodium edition is available in single-ended RCA and balanced XLR configurations. What does it sound like? The best description is: nothing. SUPRA Sword does not add any sound of its own.

Gold plating is a relatively simple process, while rhodium plating is significantly more complex and costly, but offers superior conductive and long-term contact properties. For this reason, we only supply SUPRA Sword pre-terminated. The transition between cable and connector is critical due to the bifilar-wound litz conductors. To ensure optimal performance and preserve the integrity of the design, all terminations are handled in-house.

CONSTRUCTION

- Cable: Sword-I
 Conductors (x2): 2x6x0.40 (Enameled) spun around PE/PP-filler
 Area: 2x1.5mm² / AWG 15
 Isolation: PP/PE mix, D=3mm
 Parts: Twisted
 Shiled: Common Alu/Pet foli, 100%
 Jacket: PVC GA74 Crystal, round, D=8mm
 Colour: Transparent Iceblue
 Interconnect: Stereo, 2 > 2 plugs, Right = red, left = black
 Plugs: RCA-8SL Rhodium plated
 - Material: Rhodium plated Copper alloy
 - Wire connection: Soldering, Solder tin Almit 34 Super
 - Jack connection: Squeeze lock (SL)
 Signal direction: Follow the arrows > Source > Receiver
 Packaging: Wooden box 22x22x4 cm

! Plugs with chuck lock. Turn the grey housing to release or lock the plug to the female terminal.
 ▶ Release ◀ Lock

Special length are made upon request.
