

SUPRA SWORD-IXLR EXCALIBUR

High-end Interconnect with Rhodium plated XLR plugs

Gauge: 1.5mm² / AWG 15

Rev. date: 2026-05-26

Customs tariff no: 8544429010

Country or origin: Sweden

- Transparent - No signal deformation
- Great frequency response and no phase shifting.
- Bifilar wound Litz conductors
- Rhodium plated XLR plugs

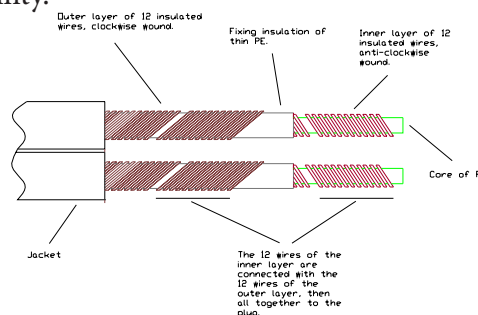

Sword-I Excalibur

Our ultimate interconnect cable. The success of the Sword Excalibur loudspeaker cable inspired the development of an interconnect based on the same patented design philosophy. The cable functions as a near-perfect signal carrier without the side effects associated with traditionally designed cables, which often suffer from severe frequency response irregularities and phase shifting. Sword preserves signal integrity with almost immeasurable deformation thanks to our complete control of the electro-physical design and conductor geometry. Regardless of price, the Sword series remains exceptionally difficult to surpass. The Rhodium Edition is available with both single-ended RCA and balanced XLR connectors. What does it sound like? The best description is: nothing at all — Supra Sword adds no character of its own. While gold plating is comparatively straightforward, rhodium plating is significantly more complex and costly, but offers superior hardness, durability, and contact performance. To preserve the unique electrical and mechanical properties of the bifilar-wound litz conductors, all Sword cables are exclusively supplied factory terminated. The transition between cable and connector is critically important, and maintaining this precision assembly in-house ensures optimal performance and long-term reliability.

CONSTRUCTION

- Cable: Sword-I
 Conductors (x2): 2x6x0.40 (Enameled) spun around PE/PP-filler
 Area: 2x1.5mm² / AWG 15
 Isolation: PP/PE mix, D=3mm
 Parts: Twisted
 Shield: Common Alu/Pet foli, 100%
 Jacket: PVC GA74 Crystal, round, D=8mm
 Colour: Transparent Ice Blue
 Interconnect: Stereo, 2 XLR 3F Female > 2 XLR 3M Male, Right = Red, Left = Black
 Plugs: Supra Swift Rhodium plated, Chassis in silver colour
 - Material: Rhodium plated Copper
 - Wire connection: Soldering, Solder tin Almit 34 Super
 - Jack connection: Quick lock
 Signal direction: Follow the arrows > Source > Receiver
 Packaging: Wooden box 22x22x4 cm

Special length are made upon request.
