

SUPRA VGA-VGA M-M

High performance VGA monitor cable

15-pin HD D-Sub male to 15-pin HD D-Sub male

Rev. date: 2026-07-14

Customs tariff no: 8536901000

Country of origin: Sweden

- Professional VGA cable for high-resolution analogue video applications
- Triple-shielded construction for maximum interference rejection
- Low-loss 75 Ohm coaxial RGB conductors for optimum image quality
- Robust moulded connectors with integrated ferrite cores for reliable long-term performance

SUPRA VGA-VGA High performance VGA monitor cable

Supra VGA-VGA is a premium analogue video cable designed for demanding computer and AV installations where maximum signal integrity is required. Unlike conventional VGA cables, SUPRA employs individually screened 75 Ohm coaxial conductors for the RGB video signals together with separate conductors for synchronization and control signals. The heavy shielding and precision construction minimize ghosting, signal reflections and electromagnetic interference, ensuring sharp images even over longer cable lengths.

Ideal for monitors, projectors, KVM systems and professional display installations.

CONSTRUCTION

Cable:	SUPRA VGA Video Cable
Interface:	VGA (HD15) analogue video
Jacket:	PVC, round
Diameter:	Approx. 9 mm
Colour:	Ice Blue
Marking:	SUPRA > Made in Sweden > Meter mark
Plugs:	HD15 (VGA) male <->HD15 (VGA) male
Shielding:	Triple shield with individually screened RGB coaxial conductors and overall braid/foil shield

ELECTRICAL SPECIFICATION

Video impedance:	75 Ohm (RGB coaxial conductors)
Signal attenuation:	Low-loss design for high-resolution analogue video
Shielding:	High-density multi-layer shielding
