

## SUPRA XL ANNORUM BI-AMP

High-end Loudspeaker Cable with Banana/Spade - Bi-amp

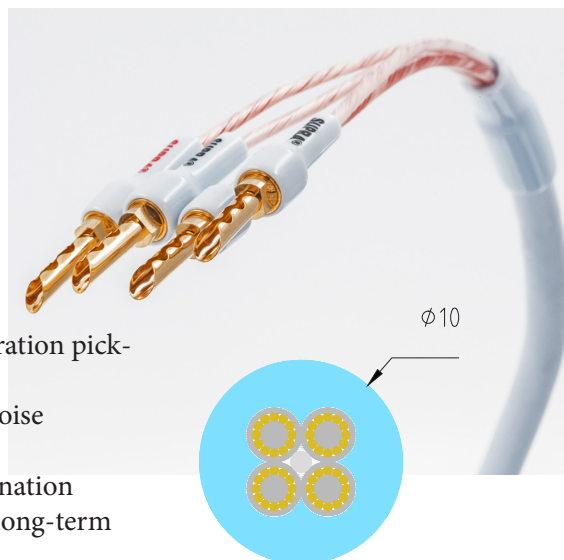

Gauge: 4x1.6mm<sup>2</sup> / AWG 15

Rev. date: 2026-05-29

Customs tariff no: 8544429010

Country of origin: Sweden

- Rubber-based jacket for minimal microphonic sensitivity and vibration pick-up
- Star Quad configuration for extremely low inductance and high noise immunity
- Interchangeable M6-thread connectors for banana or spade termination
- 24K gold-plated copper connectors for optimal conductivity and long-term durability

### XL ANNORUM 4x1.6 - BI-AMP with banana/spade

The cable features a 4 x 1.6 mm<sup>2</sup> square-shaped Star Quad configuration. Each conductor consists of a plastic core around which 12 strands of 5N oxygen-free copper are tightly wound. This design effectively minimizes both skin effect and inductance while ensuring fast and stable signal transmission. PP (polypropylene) is used as dielectric insulation due to its excellent electrical properties and high chemical stability. This ensures long-term sonic performance without corrosion or material fatigue, maintaining maximum signal integrity year after year. Performance-wise, the cable is positioned between the Supra Quadrax and Sword series.

The Star Quad geometry reduces inductance and improves immunity against external noise and interference. CombiCon connectors provide maximum flexibility and convenience, allowing the use of both banana and spade terminations. Spade connectors are included. The CombiCon connectors are high-pressure crimped directly onto the conductors. When properly executed, this creates an airtight, homogeneous, and electrically transparent connection with properties similar to fusion welding.

Also available in Star Quad (4>4) bi-amp configuration.

### CONSTRUCTION

- Cable: [XL Annorum 4x1.6](#)
- Cross section Area: 4x1.6mm<sup>2</sup> / AWG 15
- Conductors: Transparent. + Red/- White
- Jacket: Rubber based PVC GA54, round
- Diameter: 10 mm
- Colour: Ice Blue (other colours upon request)
- Marking: SUPRA XL ANNORUM 4x1.6 > Made in Sweden > Meter mark
- Configuration: Stereo pair, 4 > 4 connectors, Right = Red, Left = Black
- Connector: CombiCon, 16 x Banana pins & 16 x spades included
- Material: 24K gold plated Copper
- Wire connection: Crimp, 16 x CombiCon body CB02XL M6
- Bending protection: Sleeve 8 x S1-2 Red, 8 x S1-2 Black
- Cable split: 20cm, Sleeve 2 x S9 Red, 2 x S9 Black
- Signal direction: Follow the arrows > amplifier > Speaker
- Packaging: Carton 26x24.5x4.8 cm
- Standard lengths as listed below, special lengths upon request.
