

## SUPRA XL ANNORUM COMBICON

High end loudspeaker cable with Banana/Spade - full range

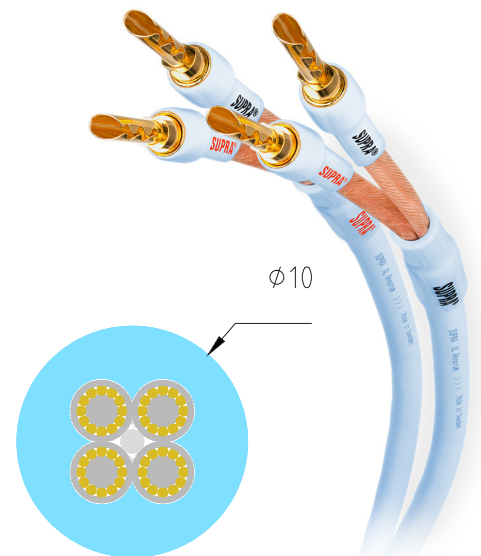

Gauge: 4x1.6mm<sup>2</sup> / AWG 15

Rev. date: 2026-05-29

Customs tariff no: 8544429010

Country of origin: Sweden

- Rubber based jacket for minimal microphony pick-up
- Star Quad configuration - very low inductance
- Interchangeable connectors with M6 thread, banana/spade
- 24K gold-plated copper connectors

### XL ANNORUM 4x1.6 - Full Range with Banana/Spade

The design is a 4 x 1.6 mm<sup>2</sup> square shaped lead configuration, where each lead comprises a plastic core around which 12 strands 5N Oxygen-free Copper are spun in a tight pitch. This minimizes skin-effect and inductance efficiently and by choosing the sonically benign PP as di-electric (insulation) the sonical stability by preventing corrosion and material fatigue, will remain at highest possible level year after year. The specification and performance fits right in between our Supra Quadrax and Sword edition.

- Star Quad configuration for inductance cancellation and noise immunity
- CombiCon contacts features maximum customer convenience. Forks included.
- 5N Oxygen free Copper strands spun on core to minimize skin-effect
- PP dielectric for maximum signal integrity and chemical stability

CombiCon is pressed under high pressure onto the conductor. Done correctly, it brings the material together into an airtight, homogeneous and electrically invisible joint, almost similar to fusion welding.
