

SUPRA XL ANNORUM INTERCONNECT

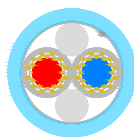

High-performance analogue audio cable + drain wire

Gauge: 2x1.6mm² / AWG 15

Rev. date: 2023-04-27

Customs tariff no: 8544429010

Country or origin: Sweden

- Hybrid design derived from XL Annorum and Sword technologies
- Optimized for high transparency and phase accuracy
- Extremely low susceptibility to vibration-induced noise
- Full aluminium foil shielding with drain wire

XL Annorum Interconnect - High-End Audio Applications

The XL Annorum Interconnect Blue B300 is a professional-grade analogue audio cable designed for custom interconnect manufacturing and OEM applications. Developed from the same engineering principles as SUPRA's XL Annorum speaker cable and Sword interconnect range, it combines advanced conductor geometry with effective mechanical damping to achieve exceptional signal integrity.

Its construction utilizes bifilar-spun 5N oxygen-free copper conductors arranged around a central core to promote consistent signal transfer across the audio spectrum while minimizing phase-related distortions. The cable's damping materials and flexible outer jacket help suppress mechanically induced noise, making it particularly suitable for demanding high-resolution audio systems.

A full aluminium foil shield together with a drain wire provides effective protection against external interference, preserving low-level detail and dynamic range. Positioned between the SUPRA EFF-I and flagship Sword-I series, the XL Annorum Interconnect offers a balanced combination of performance, durability, and value for custom cable builders and audio manufacturers.

CONSTRUCTION

Conductor material:	5N Oxygen-Free Copper (OFC)
Cross-sectional area:	2 × 1.6 mm ² / AWG 15 + drain wire
Shielding:	Aluminium/PET foil shield with drain wire
Channels:	1 channel (mono cable construction)
Flexibility:	Medium flex
Colour:	Ice Blue
Packaging:	Bobbin 300M

APPLICATIONS

- Custom RCA interconnects
- Custom XLR interconnects
- OEM audio manufacturing
- Studio and professional audio installations
- High-fidelity home audio systems
